*** PILOT YEARS - # of counties that participated -- Year 1 - 3; Year 2 - 7; Year 3 - 14.

Please note not all children have complete screening information, valid percents reported. Use of fasting lipid profile (instead of fingerstick) started Year 5; Change from fasting to non-fasting lipid profile started 2nd semester of Year 15.

Includes: Hypertension: Systolic blood pressure and/or diastolic blood pressure ≥ 95%; Hyperinsulinemia >20.5mcU/mL; **Child - Abnormal Insulin Level - percentage of AN positive plus ordered insulin sample.

Other Programs throughout the years: Cabell County - Greenbrier County - CHOICES; HEART Program; McDowell County - CHOICES; Wood County - L.I.F.E.
